PT Kliring Berjangka Indonesia

1. Perdagangan Berjangka Komoditi

Perdagangan Berjangka Komoditi yang selanjutnya disebut Perdagangan Berjangka adalah segala sesuatu yang berkaitan dengan jual beli komoditi kemudian berdasarkan kontrak berjangka, kontrak Derivatif Syariah, dan / atau kontrak Derivatif lainnya. PT Kliring Berjangka Indonesia (PT KBI) sebagai lembaga yang ditunjuk sebagai lembaga kliring dalam industri perdagangan berjangka, PT KBI memiliki peran strategis yang berfungsi untuk memelihara integritas keuangan para pelaku usaha

2. Sistem Resi Gudang

Sistem Resi Gudang adalah kegiatan yang berkaitan dengan penerbitan, pengalihan, penjaminan dan penyelesaian Transaksi Resi Gudang. Instrumen strategis ini bertujuan untuk memberdayakan petani dan pelaku usaha dimana komoditi yang dihasilkan mampu memberikan nilai ekonomi dan meningkatkan daya saing di perekonomian nasional dan internasional.

3. Pasar Fisik Komoditi

Dalam rangka mewujudkan integritas finansial pasar komoditi nasional, PT KBI sebagai lembaga Kliring dan Penjaminan Penyelesaian transaksi Pasar Fisik Komoditi, turut berintegrasi dengan perdagangan komoditas-komoditas unggulan Indonesia. Komoditas tersebut meliputi komoditas tambang hingga aset digital. Integrasi antara pedagang fisik dengan bursa, lembaga kliring, dan pusat logistik akan memberikan keamanan yang lebih terpercaya bagi para investor.

PT Kliring Berjangka Indonesia

1. Commodity Futures Trading

Commodity Futures Trading, hereinafter referred to as Futures Trading, is everything related to the buying and selling of commodities based on futures contracts, Sharia Derivative contracts, and/or other Derivative contracts. PT Kliring Berjangka Indonesia (PT KBI) as the institution appointed as the clearing house in the futures trading industry, PT KBI has a strategic role that functions to maintain the financial integrity of business actors

2. Warehouse Receipt System

The Warehouse Receipt System is an activity related to the issuance, transfer, guarantee and settlement of Warehouse Receipt Transactions. This strategic instrument aims to empower farmers and business actors where the commodities produced are able to provide economic value and increase competitiveness in the national and international economies.

3. Physical Commodity Market

In order to realize the financial integrity of the national commodity market, PT KBI as a clearing and guarantee institution for the settlement of physical commodity market transactions, is also integrated with the trade of Indonesia's leading commodities. These commodities range from mining commodities to digital assets. The integration of physical traders with exchanges, clearing houses, and logistics centers will provide more reliable security for investors.

PT Jalin Pembayaran Nusantara

1. Switching

a. QRIS

Jalin sebagai Lembaga Switching sudah untuk mendukung implementasi QRIS sejak 2020. Melalui QRIS, para penyelenggara jasa sistem pembayaran dapat melakukan interkoneksi (saling terhubung) dan interoperabilitas (saling dapat dioperasikan). Dengan QRIS, Jalin member dapat menjangkau nasabah lebih luas dan mempermudah transaksi pembayaran.

b. Jaringan ATM Link

Biaya investasi mesin ATM akan meningkat di tahun mendatang, dan pada saat yang sama, volume transaksi per ATM akan turun dengan meningkatnya jumlah ATM. Jadi, pilihan terbaik bagi bank saat ini, adalah berbagi layanan dan infrastruktur dengan sedikit biaya. Dengan terhubung ke dalam Jaringan Link, maka Bank akan dapat memberikan layanan yang luas bagi nasabahnya untuk dapat menikmati berbagai layanan seperti Cek Saldo, Tarik Tunai, Transfer Uang, dan Pembayaran Tagihan.

c. Debet Link

Merupakan produk Jalin untuk memudahkan dan mempercepat transaksi pembayaran non tunai di Indonesia yang tergabung dalam jaringan GPN yang mampu memproses hingga 80 juta transaksi debit GPN dalam setahun.

PT Jalin Pembayaran Nusantara

1. Switching

a. QRIS

Jalin as a Switching Institution has been supporting the implementation of QRIS since 2020. Through QRIS, payment system service providers can interconnect and interoperate. With QRIS, Jalin members can reach a wider customer base and simplify payment transactions.

b. ATM Link Network

The investment cost of ATM machines will increase in the coming years, and at the same time, the volume of transactions per ATM will decrease as the number of ATMs increases. So, the best option for banks today is a variety of services and infrastructure at a low cost. By connecting to the Link Network, the Bank will be able to provide extensive services for its customers to enjoy various services such as Balance Checks, Cash Withdrawals, Money Transfers, and Bill Payments.

c. Debit Link

This is a Jalin product to facilitate and accelerate non-cash payment transactions in Indonesia those are part of the GPN network which is capable of processing up to 80 million GPN debit transactions in a year.

<p>2. Digital</p> <ul style="list-style-type: none"> a.
